DRDE, Gwalior

## **Dr Saraswat Inaugurates State of the art Chem Bio sensor facility**

**Its time to strengthen our capabilities in area of nuclear, chemical and biological warfare, said Dr. Vijay Kumar Saraswat, Scientific Advisor to Raksha Mantri, Secretary, Dept of Defence R&D & DG, DRDO.** He was speaking after the inauguration of state of art Chem bio sensor facility at the **Defence Research and Development Establishment (DRDE), Gwalior.** DRDE is a premier defence laboratory engaged in the **development of state of the art products and technologies for Chemical and Biological defence.** Addressing the gathering, Dr Saraswat said, "I congratulate the dedicated members of DRDE who have not only developed a wide range of NBC technologies but also translated them into products and taken them to users". He said that in future, conflicts are likely to be dominated by asymmetric warfare, low intensity conflicts and proxy wars. Chemical and biological agents as well as cyber warfare are potential threats in such cases.
