

Name of the equipment	Pneumatic Shock Testing Machine Make M/RAD Model No 2424(550) PA-MPC
Purpose/Use	Used for Mechanical Shock Testing
Photograph	
Key specification	Max weight 550 pounds 115 volts or 220 volts single phase 60/50 Hz Utilities- Plant air/bottled nitrogen 80-120 PSI
Representative output, if possible	Graph of Half sine wave
