

Name of the Equipment / Facility	Combined Vibration and Climatic Test System
Purpose of Use	To Simulate Combined Vibration and Climatic Environment
Photograph	
Key Specifications	<p> Temperature : -70 to 180°C Rate of Heating & Cooling : 5°C/Min. Relative Humidity : 10% to 95% RH Altitude : Ambient to 1 m bar (50 Km) Dimensions : 1050mm(LR) ×1250mm(FB) ×1000mm(TB) Max. Payload : 500 Kgs </p>
Representative Output (if Possible)	Force, Acceleration, Temperature, Humidity and Pressure
