EXPRESSION OF INTEREST

Call for Joint Development Partners from Pharma- Healthcare Industry and Bio-Medical Research Institutes

Institute of Nuclear Medicine & Allied Sciences (INMAS), a premier Life Sciences Laboratory under Defence R & D Organization, is engaged in development of new drugs, bio-medical products and devices for the Defence forces. These products are then implemented in the Indian Army, Indian Navy and CAPFs. In general these bio-medical products are based on nano-technology, high altitude, NBC, emergency and disaster medicines required for defence sector.

The Institute now seeks joint development partners for new products for industrial research and production. These shall be provisioned to various users under MOU.

The Institute also invites pharma and health care units to come up with Bio-Medical products useful in augmenting efficiency and health of the troops. By conducting requisite safety and efficacy tests followed by human trials with participation of Defence forces, the Institute may act as an interface between the developers and Defence sector users by value adding to the technology.

Research Institutes may also apply for joint research and development activities through contract research projects.

Interested parties may express their interest to Director INMAS, Brig. S.K. Majumdar Marg, Delhi-110054 within 10 days of the publication of this advertisement, preferable through Fax or email. Any queries/clarifications within this period may be addressed to the same number or email. (Head, Technical Co-ordination Division at director@inmas.drdo.in, inmastechoord@gmail.com or Fax to 011-23919509)
